Who We Are

Makhaswa Holdings (Pty) Ltd is a premier, 100% Black-Owned, Level 1 B-BBEE multi-disciplinary civil engineering, infrastructure development, mechanical, and general building construction enterprise headquartered in Pretoria, Gauteng. The company was officially incorporated with the Companies and Intellectual Property Commission (CIPC) on **17 July 2017** (Registration: **2017/307900/07**).

Through continuous capital investment and flawless project execution, Makhaswa Holdings has scaled into an elite contractor holding top-tier **CIDB Grade 8 CE PE** (Civil Engineering) and **8 ME PE** (Mechanical Engineering) ratings, alongside active accreditations in Specialist Building (7SB PE), Electrical Infrastructure (7EB PE), and General Building (6GB PE).

We execute public infrastructure tenders, municipal framework contracts, commercial facilities, and bulk reticulation schemes across Gauteng, Limpopo, KwaZulu-Natal, and North West.

BLACK OWNED / 50% FEMALE

Our Vision

To be a leading African infrastructure and engineering contractor recognized for execution excellence, innovative engineering solutions, uncompromised safety standards, and sustainable socio-economic development.

Our Mission

To procure and execute construction projects at competitive pricing, provide safe working environments, deliver quality infrastructure on time and within budget, and empower local communities through skills transfer.

GOVERNANCE & LEADERSHIP

EXECUTIVE MANAGEMENT, ORGANOGRAM & STATUTORY APPOINTMENTS

Lucas Dinga (CEO / Authorized Signatory)

Statutory CR 7(19c) Appointee

Oversees corporate strategy, commercial expansion, tender procurement, joint ventures, and client relations. Brings over 10 years of specialised experience in civil engineering, road works, and major building contracts. Sole designated signatory for legal contracts and financial operations.

Nelly Motswapong (Ms. Nelly) (Director / Co-Owner)

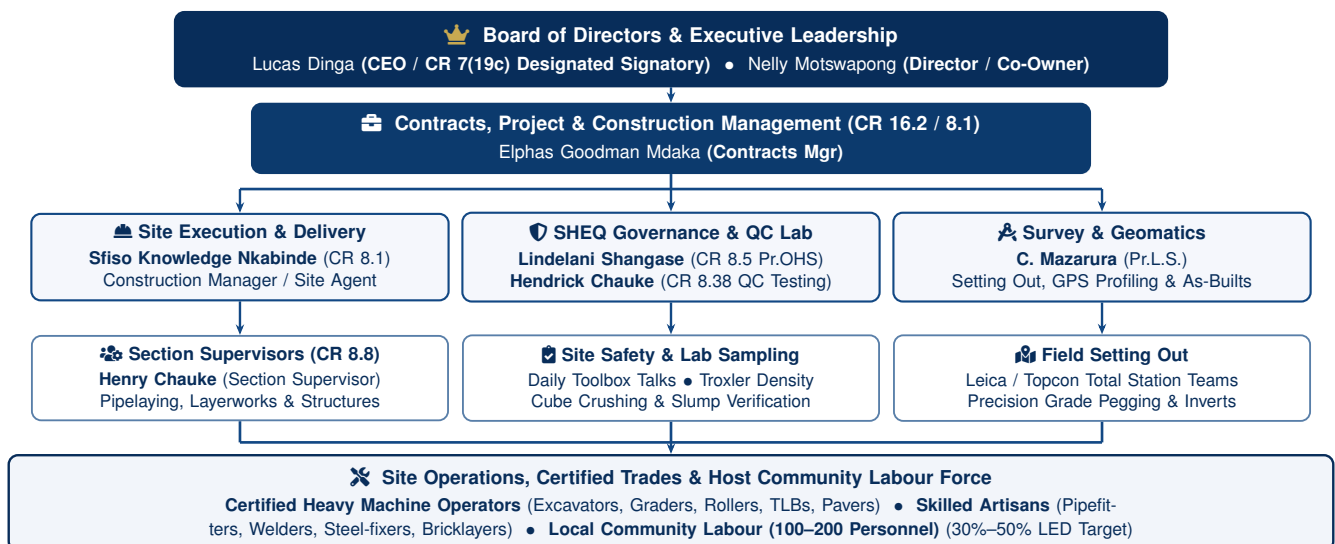

50% Black Female Ownership Equity

Directs corporate governance, human capital development, broad-based enterprise transformation, CSI initiatives, and operational administration. Ensures that all site operations adhere strictly to employment equity and community upliftment mandates.

Statutory Appointments (OHS Act 85 of 1993 & Construction Regulations 2014)

Key Personnel	Designation	Statutory Ref	Primary Operational Responsibility
Lucas Dinga	Chief Executive Officer	CR 7(19c)	Corporate leadership, commercial sign-off, tender bids
Elphas Goodman Mdaka	Project & Contracts Manager	CR 16.2 & 8.1	Contractual administration, client liaison (074 481 0520)
Sfiso Knowledge Nkabinde	Construction Manager / Site Agent	CR 8.1	Day-to-day site management, resource execution
Lindelani Shangase	SHEQ Officer	CR 8.5 (Pr.OHS)	Health & Safety audits, environmental compliance
Hendrick Chauke	Quality Controller (QC)	CR 8.38	ITPs, slump tests, concrete 28-day cube crushing
Henry Chauke	Section Supervisor	CR 8.8	Section layerworks, pipelaying, structural builds
C. Mazarura	Professional Land Surveyor	Pr.L.S.	Setting out, GPS road profiling, as-built coordinates

Corporate Organizational & Site Supervisory Structure

ACCREDITATIONS

CIDB GRADING MATRIX, STATUTORY REGISTRATIONS & BANKING

Makhaswa Holdings maintains full statutory and professional compliance across every regulatory authority governing South African construction. All registrations are active and verifiable for tender due diligence:

CIDB Multi-Disciplinary Grading Matrix (CRS No: 10153817)

CIDB Grade	Engineering Class / Discipline	Tender Value Capability
8 CE PE	Civil Engineering Works (Potentially Emerging)	Up to R200 Million
8 ME PE	Mechanical Engineering Infrastructure	Up to R200 Million
7 SB PE	Specialist Building Works	Up to R60 Million
7 EB PE	Electrical Engineering Works (Building)	Up to R60 Million
6 GB PE	General Building Works	Up to R30 Million

OUR JOURNEY

STRATEGIC GROWTH, KEY MILESTONES & TRACK RECORD

Established in 2017, Makhaswa Holdings (Pty) Ltd has charted an exponential growth trajectory from early civils in Gauteng to a nationally active, Tier-1 contractor executing mega-infrastructure across four provinces:

2017 • Company Establishment

Makhaswa Holdings incorporated on 17 July 2017. Entry into road surfacing, earthworks, and residential builds across Gauteng.

2019 • Public Sector & Fleet Growth

Awarded first major municipal road frameworks (JRA Diepsloot Ext 06). Acquired dedicated heavy yellow-metal fleet.

2021 • Major Reticulation & Health Builds

Delivered Road D2702 (Dwaalboom RAL) and Rhiza Community Clinic. Expanded into deep municipal stormwater networks.

2022 • B-BBEE Level 1 & Hub Growth

Certified Level 1 B-BBEE contributor (135% recognition). Established operational hubs in Midrand, Mokopane, and Durban.

Present • CIDB Grade 8 & Megaprojects

Holding elite Grade 8 CE PE & 8 ME PE ratings. Active partner in City of Tshwane JV SEG 41 and major national frameworks.

BLACK-OWNED FIRM

OUR SERVICES

CORE ENGINEERING DISCIPLINES & TECHNICAL CAPABILITIES

01. Bulk Earthworks & Ground Engineering

Clearing, 300mm topsoil stripping, cut-to-fill balancing, mass terrace preparation, basement excavation, subgrade ripping to 90%–93% Mod AASHTO, lime/cement stabilization, and dump rock filling for wet ground.

02. Road Construction, Layerworks & Surfacing

Imported dump rock subgrade, selected G7/G5, stabilized C3/C4 sub-base, and G1/G2 base compacted to 98%–102% Mod AASHTO. Continuous-graded asphalt, asphalt overlays, mill-and-replace inlays, traffic signals / traffic lights, slurry seals, chip-and-spray, and 60mm/80mm Type SA paving.

03. Civil Stormwater & Drainage Infrastructure

Supply and laying of 450mm–1200mm spigot and socket concrete pipes, Class 100D Ogee pipes, portal box culverts, in-situ concrete/brick manholes, JRA kerb inlets (JRA-SD-SW-020–024), wire-mesh gabion baskets, Reno mattresses for soil retention, and 110mm Kaytech subsoil pipes.

04. Potable Water & Gravity Sewer Reticulation

Excavation, bedding, laying of uPVC, mPVC, HDPE, and ductile iron pipelines, pressure testing, disinfection, individual erf meter connections, gravity sewer outfalls, pump stations, and reservoirs.

05. General Building & Structural Facilities

NHBRC Class 5 registered builder. Turnkey delivery of commercial office parks, municipal depots, health clinics, school classroom blocks, ablution facilities, and residential estates from foundations to final finishes.

06. Electrical Reticulation & High-Mast Lighting

Excavation and casting of structural plinths, high-mast lighting pole erection, luminaire mounting, cabling, LV/MV reticulation, intersection traffic signal electrification, and perimeter security fencing (palisade and weldmesh).

OPERATIONAL CAPACITY

PLANT, FLEET, EQUIPMENT & TECHNICAL SOFTWARE

Makhaswa Holdings manages a comprehensive plant fleet, transport logistics, and precision survey instrumentation through company-owned machinery and preferred commercial plant-hire partnerships, ensuring rapid mobilization:

Machinery Category	Operational Status	Specified Fleet & Instrumentation Capacity
Earthmoving & Excavation	Core Fleet / Hired	20t–30t Tracked Excavators, 4x4 Heavy TLBs, 140K/140H Motor Graders, D6/D7 Dozers
Compaction & Surfacing	Core Fleet / Hired	10t–12t Smooth-Drum Rollers, Padfoot Compactors, Bitumen Asphalt Pavers, Walk-behind Rollers
Haulage & Logistics	Core Fleet / Hired	10m ³ –15m ³ Tipper Trucks, 30t Low-Bed Horses & Trailers, 10,000L–16,000L Water Tankers
Survey & Testing Instruments	Company-Owned	Leica/Topcon Total Stations, RTK Dual-Frequency GPS, Troxler Gauges, Slump & Cube Kits
Site Utilities & Power	Company-Owned	50kVA–150kVA Mobile Generators, High-pressure Air Compressors, Mobile Site Offices & Ablutions
Technical & Project Software	Licensed	AutoCAD 2024, AutoCAD Civil 3D, MS Project, Primavera P6, Model Maker, CCS Candy & WinQS

SHEQ FRAMEWORK

SAFETY, HEALTH, ENVIRONMENT & QUALITY GOVERNANCE

Occupational Health & Safety

Zero Harm Commitment: Strict adherence to the OHS Act (Act 85 of 1993) and Construction Regulations 2014. Mandatory daily toolbox talks, SABS-approved PPE enforcement, appointed SHEQ Officers (Pr.OHS), continuous hazard logs, and full OHS site compliance.

Quality Assurance & Testing

ISO 9001:2015 Alignment: Documented Inspection and Test Plans (ITPs). Compaction verification via Troxler nuclear density gauges, concrete slump testing, and 150mm cube sampling with 7-, 14-, and 28-day compression crushing at SANAS-accredited testing laboratories.

Environmental Management

ISO 14001:2015 Alignment: Proactive silt trapping, runoff control berms, bunded hazardous fuel/chemical storage areas, certified waste disposal, topsoil stripping and stockpiling for complete post-construction landscape rehabilitation.

Integrated SHEQ Protocols

Daily safety checks, risk logs, and complete site compliance auditing.

ISO System Framework Alignment

ISO 9001 (Quality), ISO 14001 (Environment), ISO 45001 (OH&S).

Project & Contract No.			Client / Primary Partner	Period	Verified Scope of Works Executed
Kaalfontein (JRA/21/157)	Phase 3B		Johannesburg Agency (JRA)	2023 – 2024	Dump rock stabilization, sub-base & base layerworks (1,090m x 6.1m), 600mm stormwater pipelines & manholes at Reed Fish St.
Road D2702 (RAL/T1171/2021)	Dwaalboom		Roads Agency Limpopo / Tarcron	2021 – 2023	Heavy pavement layer repairs, asphalt overlay, crack routing, hot-pour bitumen sealing, chip-and-spray & road markings.
Diepsloot Ext 11 (JRA/21/59)	Phase 4		JRA / Anvisda Plant & Civils	2021 – 2022	Bulk earthworks, subsoil drains, 675mm–1200mm concrete stormwater pipes, roadbed compaction, asphalt surfacing & paving.
Diepsloot Ext 06 (JRA/19/214)	Roads		JRA / SR Construction	2019	450mm–1200mm stormwater pipes, catchpits, retaining walls, C4 stabilized layerworks, Figures 8/8C/12 kerbing & 80mm paving.
Diepsloot Phase 4 Zeph Moth-openg (JRA/22/83)			JRA / Baithusi Trading	2023 – 2024	Roadbed prep, cement-stabilized sub-base, G1 crushed base (551m x 5.5m), 600mm concrete pipes, sidewalks & kerbs.
Provincial Road (DRT23/05/2016)	Rehab		Gauteng DRT / Civtek	Completed	Kerb inlets with Type 2A covers, cold milling, asphalt patching, concrete driveways, medium-graded surfacing & bus bays.

✔ **Verification Notice:** All listed projects are backed by client-signed practical completion certificates and verified contactable engineering references.

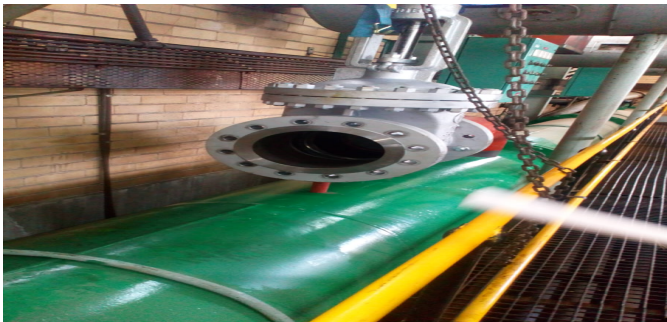

PROJECT PORTFOLIO

BULK WATER RETICULATION, PUMP STATIONS & MECHANICAL WORKS

Pumphouse Steel Piping Laid Out on Site

High-Pressure Steel Pipe Fabrication • Flanged Route Alignment

Pumphouse Industrial Valve Installation

Large Bore Isolation Valve • SANS 1200 Hydraulic Standards

CIDB Grade 8 ME PE Mechanical & Hydraulic Engineering Spotlight

⚙️ Mechanical Installation & Pumping Systems

Turnkey delivery of water booster stations, submersible raw water pumps, centrifugal supply sets, flanged isolation/non-return valves, pressure reducing valve (PRV) assemblies, and flow meter telemetry integration.

💧 Bulk Pipelines & Pressure Testing

Excavation, specialized sand bedding, precision laying of uPVC, HDPE, ductile iron, and welded steel pipelines with strict hydrostatic pressure testing up to 18 bar, disinfection, and commissioning to municipal standards.

Verified Water Reticulation & Mechanical Projects Record

Project & Contract No.	Client / Primary Partner	Period	Verified Scope of Works Executed
Lerome Water Reticulation (014/MKLM/2022/2023)	Moses Kotane Local Municipality	2023 – 2024	Mass rock trenching, uPVC/HDPE bulk potable water pipelines, hydrostatic testing, disinfection & individual household erf connections.
Tanganani Ext 51 Bulk Reticulation	Civplant Civils / Civtek	Active	Class 100D Ogee stormwater & sewer mains (450mm–1050mm), 110mm subsoil pipes, stepped drop manholes & valve chambers.
City of Tshwane Infrastructure JV	City of Tshwane Metro	Active	Joint Venture SEG 41 execution for municipal civil infrastructure upgrades, bulk pipe reticulation, and pump overhaul schemes.
Samrand Commercial Reticulation	Sedtrade / Private Client	2022 – 2023	Potable water supply networks, fire hydrant loops, booster pump installation, sewer connections, and testing.

FULL SCOPE DELIVERY

Local Economic Development (LED)

Prioritised recruitment of 30% to 50% local labour from project host communities, combined with structured on-the-job training in layerworks, pipe laying, concrete shuttering, and machine operations.

Youth & Women Empowerment

Targeted inclusion of female and youth artisans across technical and supervisory site roles, providing certified learnerships, apprenticeship development, and career advancement paths.

Enterprise & Supplier Development (ESD)

Ring-fencing specialized trade packages (paving, kerbing, painting, fencing, security) for local emerging SMMEs, paired with practical mentorship in pricing, health and safety, and quality delivery.

Community Infrastructure Aid

Direct sponsorship of local school facilities (e.g. Diepsloot West Secondary School), community sports tournaments, and donation of building materials for vulnerable community centers.

Local Craftsmanship & Structural Skills Transfer

Security Fencing & Community Infrastructure

Our Shared-Value Philosophy: At Makhaswa Holdings, every contract is treated as a catalyst for sustainable community transformation. Beyond delivering durable infrastructure, we measure our success by the local jobs created, the SMMEs developed, and the technical capabilities left behind in host communities long after practical completion.

CLIENT REFERENCES

CONTACTABLE CLIENT REFERENCES & PROJECT VERIFICATION DIRECTORY

✓ Practical Completion & QA Sign-Off

All completed works undergo structured quality assurance sign-offs, including SANAS laboratory concrete compressive strength testing, SANS/AASHTO roadbed compaction verification, and hydrostatic pressure testing on bulk water infrastructure.

📄 Official Tender Due Diligence Directory

Makhaswa Holdings maintains a verified record of compliant project delivery across municipal, provincial, and private clients. Contactable client references, joint venture partners, and site agents are listed below for official tender evaluation:
